If, exceptionally, it begins a sentence, there is a space before and after. The Chicago Manual of Style, edition 16. In Abstract Syntax Notation One (ASN.1), the ellipsis is used as an extension marker to indicate the possibility of type extensions in future revisions of a protocol specification. Aposiopesis is the use of an ellipsis to trail off into silence. For example: "But I thought he was $\left\{\pi^2, 3\pi^2, 5\pi^2, \dots\right\}$ ". In news reporting, often associated with brackets, it is used to indicate that a quotation has been condensed for space, brevity or relevance. To indicate the omission of values in a repeated operation, an ellipsis raised to the center of the line is used between two operation symbols or following the last operation symbol, as in: pp.328329

] Depending on their context and placement in a sentence, ellipses can indicate an unfinished thought, a leading statement, a slight pause, an echoing voice, or a nervous or awkward silence. As commonly used, this juxtaposition of characters is referred to as "dots of ellipsis" in the English language. [5] p.424 (spacing of dots: In writing, the ellipsis consists usually of six dots (two 3-ten rd characters,) Retrieved 11 August 2016

In poetry, an ellipsis is used as a thought-pause or line break at the caesura [7] or this is used to highlight sarcasm or make the reader think about the last points in the poem. However, variations in the number of dots exist. The combination "ellipsis+period" is replaced by the ellipsis ^ "Chicago Style Q&A: How do I insert an ellipsis in my manuscript?" In a type constraint expression like A ::= INTEGER (0.127, ., 256.511) an ellipsis is used to separate the extension root from extension additions. Note that ISO/IEC 8859 encoding series provides no code point for ellipsis. Retrieved 18 August 2016. In Japanese [edit] c3545f6b32
